Dear USPTO:

This fax is confirmation of my agreement to an amendment to patent application 10/064,806 dated December 11 submitted by my co-inventor, David H. Shepard of Coronado, California. The amendment was reported by Express Mail trace to have been received by the USPTO on December 12. The Primary Examiner involved is Nicholas Ponomarenko and I would appreciate your forwarding this document to him.

I have participated in making the amendment by supplying the drawings and have read and approve of the changes in the specification paragraphs requiring changes, all of which are of an explanatory nature with no new matter included.

This document is being sent from my home fax machine in Australia.

Respectfully submitted,

B.W. Roberts
